

# Release: Tasmanian Health Directory

We are pleased to announce that the Tasmanian Health Directory (THD) for Primary Health Tasmania (PHT) was successfully launched on the 1st of September.

PHT went to tender back in 2018 to seek an update to their existing health directory, with the aim of making it a more contemporary and extensible solution. A secondary aim was to support interactions with other systems such as the National Health Service Directory (NHSD) and Tasmanian Department of Health.

This is delivered as an extension to our Clinical Knowledge Management System, the same platform that delivers the State-wide Formulary for WA, QLD and TAS, as well as the Digital Health Guide.

This platform was a good fit, and a great opportunity for us to enhance the capabilities of our product, while building a core piece of infrastructure and capability needed to support Secure Message Delivery between health providers.

As such, it is a great tool to support our Referral Management platform and Clinical Communications from the Clinical Suite, Salveo and Snug.

The screenshot shows the 'Tasmanian Health Directory' search results page. The page has a blue header with the 'phn' logo and a search bar. Below the header, there are tabs for 'Search Results', 'Advanced Search: Practices', and 'General Practice'. The main content area displays a list of practices, with the first three visible:

NAME	STREET ADDRESS	PHONE	FAX	MAILBOX	ACCEPTING NEW PATIENTS	TYPE	POSTAL ADDRESS	EMAIL
Beaconsfield Doctors Surgery	144 WELD STREET BEACONSFIELD TAS 7270	03 6383 1770	03 6383 1700	wstburds	Yes	General Practice	144 WELD STREET BEACONSFIELD TAS 7270	<a href="mailto:vanessa@yhcgroupp.com.au">vanessa@yhcgroupp.com.au</a>
